

Football Seating Applications: Football Stadium Seating requires different seating capacities for each level of competition. With thousands of football grandstands and bleacher projects, Sturdisteel has long been a leader in this segment of our industry. The versatile clear span understructure offers a variety of uses from concession stands to restrooms to storage or dressing facilities. Sturdisteel can design and build to fit any need.

Sturdisteel offers a variety of seating options whether your seating requirements are 500 or 50,000.
